*Q: Why is everyone so tired on April 1? A: Because they've just finished a long, 31 day March! ☺*

Spring is here and that means you should start thinking about protecting your pets against both tick-borne illnesses and heartworm disease. Ticks can transmit two major diseases, Lyme and Anaplasmosis, both which cause painful joints and lethargy. Mosquitoes transmit deadly heartworm disease when they bite your pets.

Protect your pets from fleas and ticks with monthly Frontline Plus. This topical product works through an animal's oil glands and distributes over the entire dog's skin. Throughout the month of April we are offering 2 free doses of Frontline when you purchase a 6 pack. This offer is competitive with any online pharmacy:
